February 14th- Valentine's Day

February 15th- Half Day/Talent Show
11 am Dismissal

February 18-24th- Winter Recess

A Note From the teachers

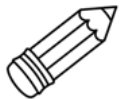

Please remember that your child needs to be reading a minimum of 3 nights a week and recording the reading in their reading log. Please find a good place to store your reading log where it won't get lost. Extra copies will not be given. Also, please remember to turn in the reading log each Monday.

A Peek At What We Are Learning

Reading

We have read many expository texts pertaining to science topics such as the sky, space, friction, and magnets.

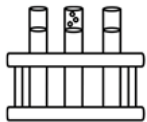

Writing

We have been working on our text-based responses for Science and Social Studies.

Math

We finished out our unit on three-digit addition with regrouping and now are moving on to three-digit subtraction with regrouping

Science

We started our unit on the many ways Earth's surface has changed shape.

Social Studies

We finished learning about our nation's government and started learning about important people, places, and holidays!

Bible

In our Bible lessons we are just outside the Promised Land. We said goodbye to Moses and will continue the journey with Joshua next week. The students have enjoyed learning about the Israelites and their chosen leader. As they followed the former slaves out of Egypt, students were able to see how unbelief and disobedience precede consequences and missed blessings. They are able to compare and contrast the faith of Moses with that of the people of Israel.
